PLAYABILITY:

Plays smooth, solid and well rounded, not at all a weighty guitar. Nice long neck and nice feeling body

MUSICAL VERSATILITY:

With one volume knob, a pickup selector and a tone knob you really can't get it to sound bad.

SOUND:

Nice punchy bass, with good definition in the mid range. For sound vs price range you're sure getting your money's worth.

AESTHETICS:

Not really for me, stylistically it's not my thing. Reasonable sized body, light weight. Loved the neck though.

CONSTRUCTION:

Well enforced bolt on neck. Solid one-piece body. Solid guitar

BANG FOR YOUR BUCK:

Like all Hagstrom instruments, unbelievable bang for your buck.

OVERALL:

This is a solid meat and potatoes bass, looks rocking and will be a more than adequate entry into the bass world.
